

RESOLUTE™ STRENGTH SELECTORIZED

Converging Chest Press

RSL0414

Resolve to make your selectorized strength equipment purchase with confidence—choose the Resolute™ Strength line from Precor. It delivers on what matters most: your investment will withstand the test of time.

The Resolute Strength Converging Chest Press features independent moving arms and a natural, converging motion path. This promotes more muscle recruitment and exercise variety while training the muscles involved in upper body pushing movements, including the pectoral muscles and triceps.

RESOLUTE™ STRENGTH SELECTORIZED

Converging Chest Press III

RSL0414

Product Features

PROVEN BIOMECHANICS

The movement arm handles of the Resolute Strength Chest Press can be angled to keep wrists in correct alignment as the exerciser's hands converge. Independent moving arms offer the option to target training to a single arm.

DESIGNED TO GO THE DISTANCE

The over-sized steel tubing of the Converging Chest Press contributes to a more durable product while also giving one of the most popular pieces of the Resolute line a timeless, contemporary silhouette. All the pivot and adjustment points are designed for quiet operation for years to come.

FOCUSED ON THE EXPERIENCE

The Resolute Chest Press starts with an open design that's easy to enter, and offers comfortable upper-body support while seated. Bright adjustment points beneath the seat and on the movement arm handles remind the exerciser to personalize the fit prior to starting the movement.
