

DARCO® BODY ARMOR™ WALKER

A Combination of Compression, Protection and Immobilization in a Quality Walker.

The BAW provides the desired qualities of a short leg walking cast, protection, immobilization, compression and ambulation with the convenience and economics of a short leg walker.

Special Features:

- Unique, adjustable "ski boot" buckling system offers consistent, even compression.
- Contoured, vented liners allow better fit and direct air circulation for comfort and breathability.
- Sturdy outer shell is durable and ads protection.
- Padded insole offers patient comfort and is wound accessible.
- Rocker sole provides a smooth roll through the gait pattern.
- High and low versions available.
