

Wrist & Elbow Braces

Push Sports Elbow Brace *For Tennis Elbow or Golfer's Elbow*

The Push Sports Elbow Brace stays in place to provide localized pressure through a silicone pad for pain relief from tennis or golfer's elbow.

- Provides relief from medial or lateral epicondylitis (tennis or golfer's elbow)
- Comfortable, well-distributed pressure to extensor or flexor origin
- Provides localized pressure through viscoelastic pad
- Does not shift on the arm, even during competition
- Machine washable on gentle cycle at low temperature

Push Sports Wrist Brace

Immobilizes the Wrist with Minimal Palmar Material, Greater Hand Function

The Push Sports Wrist Brace provides a high level of support and protection to the wrist joint without restricting hand function. The anatomically shaped stays immobilize the wrist with minimal palmar material.

- Easily worn under coats, clothes, and gloves
- Multiple anatomically-shaped dorsal and volar stays fit the hand's contours
- Wide elastic strap permits precise adjustment
- Comfortable fit with no pressure on bony wrist areas
- Machine washable on gentle cycle at low temperature

BraceLab

Push Sports Wrist Support

Provides Wrist Compression; has Thumb Loop for Easy Application

The Push Sports Wrist Support lets the user adjust compression for comfortable protection of the wrist joint. A thumb loop allows for easy one-handed application.

- Adjustable strap for optimal compression and comfort
- Lined with anti-slip silicone strips to keep brace in place
- Thumb loop aids easy one-handed application
- Designed for mild wrist injuries
- Machine washable on gentle cycle at low temperature

Indications

- Minor sprains/strains and instability of the wrist
- Tendinitis of wrist tendons
- Support after wrist fractures
- Arthritis of the wrist
