

Why WrapAdapt™ Wins

VS TAPE

- DOESN'T LOOSEN • NONRESTRICTIVE
- MAINTAINS CONSISTENT SUPPORT THROUGH MOVEMENT

VS ELASTIC WRAPS

- ADDS STABILIZATION, NOT JUST COMPRESSION
- NO SLIPPING • NO SAGGING • NO RE-WRAPPING

VS SOFT SUPPORTS

- ADJUSTABLE • STAYS PUT
- SUPPORTS NATURAL MECHANICS RATHER THAN BLOCKING THEM

IDEAL FOR

- Grade 1–2 wrist & ankle sprains
- Late stage TFCC recovery
- Healed Colles fracture
- Scapholunate support needs
- DRUJ irritation
- Hardware pain
- Rigid stay intolerance
- When tape or elastic wraps lack stability

“Movement-based stability that stays put, feels great, and doesn’t loosen”

HCPCS CODES (NON-BINDING)
WRIST: L3908, L3909, A4467
ANKLE: L1902, A4467

Swim-Friendly Durability:
Premium neoprene construction allows use in the water without compromising support.

STABILITY THROUGH NATURAL MOVEMENT

PATENTED, QUICK APPLICATION, NEOPRENE FIGURE-8 WRAP SUPPORT DESIGNED FOR "SWEET SPOT" RECOVERY STAGES THAT NEED STABILITY WITHOUT IMMOBILIZATION.

HANDMADE IN THE USA 
BY BENIK'S SKILLED CRAFTSPEOPLE, WRAPADAPT™ IS BUILT WITH TOP-SHELF NEOPRENE, BACKED BY DURABLE QUALITY CONTROL FOR LONG-LASTING PERFORMANCE.

PROXIMAL STABILITY

- BROAD NEOPRENE WRAP FIRST ENCIRCLES THE INTEROSSEOUS MEMBRANE/SYNDESMOSIS REGION
- CREATES A STABLE PROXIMAL BASE, IMPROVED LEVERAGE FOR DISTAL JOINT MOTION
- CONFORMS WITHOUT BULK, MAINTAINS A CONSISTENT, COMFORTABLE FOUNDATION FOR MOVEMENT

TARGETED DISTAL SUPPORT

- ANGLED LONG STRAP CONFORMS AROUND TENDONS & LIGAMENTS TO REINFORCE INJURED AREAS
- INTEGRATES WITH STRONGER, RELATED MUSCLE GROUPS TO ASSIST NATURAL MOVEMENT
- PROVIDES MOVEMENT-SPECIFIC, ADJUSTABLE SUPPORT WITHOUT RESTRICTING MOTION

MOVEMENT QUALITY

- BOOSTS PROPRIOCEPTIVE FEEDBACK
- FACILITATES HEALTHY KINETIC CHAINS & CNS-DRIVEN MOTION PATTERNS
- REDUCES COMPENSATORY STRATEGIES THAT CONTRIBUTE TO OVERUSE & REINJURY
- ENHANCES CLEANER NEUROMUSCULAR CONTROL

EDEMA & COMFORT

- CONFORMING COMPRESSION
- NEUTRAL WARMTH FOR TISSUE HEALING
- NO BULK, NO TOURNIQUET EFFECT
- FOOTWEAR-FRIENDLY, PAIN-FREE APPLICATION THAT IS REPEATABLE
- PLUSH, HIGH-GAUGE NEOPRENE FEELS LIKE A SOOTHING "HUG"
- MOVEMENT-BASED LYMPHATIC SUPPORT REDUCES EDEMA & PAIN

This unique, patented design is available in right- or left-handed versions and can be worn on either the wrist or the ankle, since these areas share similar joint function, bone structure, and the presence of ligaments, tendons, and connective tissue.

Feels Like A Hug 🤗

WrapAdapt
