

One bed pan. All patients.

Bariatric, pediatric, and fracture—all in one!

- Replaces standard bed and fracture pans

- Anti-splash, anti-spill

- Low profile for easier, more comfortable placement

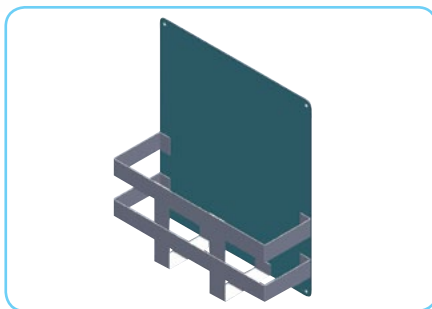

Bariatric Bed Pan

Unlike traditional bed pans, this low-profile pan is ideal for heavier patients because it slides easily underneath the patient for comfortable and easy placement and removal. 2-quart carrying capacity reduces spill and splash hazards. Stock one type of bed pan for use with all patients. Easy to clean and disinfect. Steam autoclavable and reusable.

- Certified to 1,200 lbs.

- 2-quart capacity

14 1/4"W x 15"L x 3"D • 1/2"H rim at lowest edge
• Steam autoclavable or wash with soap and water

Stores a single bed pan

For convenient, hygienic storage, use our **Universal Holding Rack** to hold any standard or bariatric bed pan. Easy to mount, easy to clean.

Stainless steel with full backing plate
• Mounting screws supplied for wall and back-of-door mounting
